

HOT MEAL

DIRECTIONS FOR USE

- 

Remove plastic cap and place on bottom of can.
- 

With water provided, place the three holes through the top outer rim of the can.
- 

Lift the ring to vertical position before pulling back to open can.
- 

Stir contents occasionally while the food is heating. Some disturbance of the can is normal.
- 

Ready to eat in 8-12 minutes. Can be eaten directly from the can or may be served in a mug or on a plate.
